- Our team has wide experience in all aspects of tenement management and ensure we are up to date on legislative changes that can affect all mining titles.
- Our internal expertise extends to providing clients with assistance in the forward planning of exploration objectives together with strategic analysis and input for reporting compliance in connection with ASX requirements.
- We have extensive Departmental relationships and take pride in our liaison capabilities and excellence in submission preparation.
- We understand the critical nature of ground acquisition especially given the priority afforded by the lodgment timeframe.
- Our team has strong capability in the area of heritage protection flowing from the key objectives of stakeholder consultation and requirements under the Native Title Act.

**KEY STAFF**

**Martin Wiedemann – Principal / Tenement Consultant**

Martin is the Principal of MKII Consulting Pty Ltd and a Tenement Consultant and has worked under Chris Clegg in his previous Statewide Tenement and Advisory Services Pty Ltd. Martin has a strong regulatory capability in the mining legislation and has consulted to another third-party tenement management group where he operated primarily in the areas of statutory compliance and ground acquisition. Martin’s previous involvement in the resources corporate finance sector has given him a broad understanding of ASX and ASIC regulatory requirements and makes him well suited to assist publicly listed client organisations.

**Chris Clegg – Senior Associate / Tenement Consultant**

Chris has previously owned and run a tenement consultancy, Statewide Tenement and Advisory Services, and has close to 40 years experience in the regulatory and compliance regime in Western Australia. During his career Chris has serviced hundreds of mineral resources companies ranging from BHP Billiton, Hancock Prospecting and Atlas Iron and Creasy Group, as well as smaller medium sized and junior resource companies and even numerous prospectors. Chris is a Director of an ASX listed company and understands the corporate requirements of listed organisations. Chris maintains very strong relationships with government departments and senior officers, with access to an extensive network of people in a diverse range of services capable of assisting clients in their business objectives.

**Vanessa Macknay – Tenement Administrator – BA Comms**

Vanessa has a background in mining tenement management, with a particular focus on administration of client's mining tenement portfolios, statutory reporting requirements, native title and heritage matters. Vanessa provides clients with regular updates and correspondence from DMP in the Perth and regional Registrars and manages Warden's Court scheduling.

**AFFILIATES**

MK-II Consulting has developed close affiliations with a team of geological, environmental and legal consultants who have extensive expertise in the mining industry enabling our clients to fulfill their technical and regulatory requirements - from exploration and discovery through to closure and mine rehabilitation. The range of skills available include:

- Geological Reporting, Mapping, Project Generation, Resources Estimation
- Geological consulting and in-field services, and contract pegging services
- Environmental Reporting, Mining Proposals and Mine Closure Plans
- Warden’s Court representation
- Barristers and resource industry legal specialists
